Why does your cat need preventive care?

Cats are really good at hiding illness

It is a common misconception that cats do not get sick. In fact, cats are susceptible to many forms of disease – regardless of whether they live indoors or outdoors. regular veterinary care can help stop illnesses before they happen.

Diseases can creep up quickly and quietly

Cats age much faster than we do. So even if your cat looks perfectly healthy, diseases and health problems could be lurking undetected. Physical exams and diagnostic tests are crucial for finding Problems not visible to the naked eye.

Prevention is the key to better health

Preventive care can improve your adult cat's quality of life and help add more healthy years. It is essential for detecting diseases early on, before they become more serious – and more expensive.
